INFO

What is KRATOM?

Steding & Sons Mercantile, we firmly support the rights of consumers to make educated decisions about the products they choose to incorporate into their lifestyle. We seek to share our insights in an ethical, transparent manner. Nothing on this poster or any 1836 Kratom advertisement, package or marketing material should be interpreted as advice, medical or otherwise. Products are intended to be a replacement for medical treatment and should not be treated as such. If you have, or may have a medical condition, please consult with a licensed physician.

What Is Kratom?

Kratom (Mitragyna Speciosa) is a cousin of the coffee plant, indigenous to Southeast Asia. The vast majority of kratom, in the USA, comes from Indonesia. Traditionally, fresh kratom leaves have been brewed or brewed as tea. More recently, they have been dried, then crushed or powdered and often encapsulated.

Who Uses Kratom and Why

A growing number of people, recently estimated at 15 million Americans, consume kratom regularly. Many fitness enthusiasts and wellness professionals believe kratom to offer a range of benefits; increased energy and focus, to relaxation and relief from discomfort. Many Americans prefer dried leaf kratom, capsules or extract products. A serving of kratom is often agreed to be 3-5g of natural kratom leaf, providing around 50mg of mitragynine in addition to a spectrum of other alkaloids. Many extract products contain significantly higher alkaloid concentrations than natural plant and concentrations vary greatly. We encourage potential consumers to do their research when considering whether or not to incorporate extract products into a routine, and which products to choose. Please read the label. At Steding & Sons Mercantile we encourage potential consumers to seek credible research from multiple sources and make decisions in alignment with their personal value system. We encourage moderation and mindful consumption. All kratom products may be habit forming.

AMERICA'S BEST KRATOM COMPANY

Steding & Sons Mercantile is proud to present 1836 Kratom and Steding & Sons Allied Forces! We are an American Kratom Association GMP Qualified Vendor, committed to continuous improvement and innovation. We provide the finest products available, in the most ethical and transparent way possible. Myself, most of our team members and many of our family members are kratom consumers, so we demand safe products not only for our customers but for our loved ones as well. **We sell kratom because we love it and believe in it.**

Every lot of our kratom is lab tested, in Indonesia before shipping, and again by accredited 3rd parties in the USA. Lab results are shared on our website, offering peace of mind. We are proud to have played an integral role in the establishment of manufacturing and export regulations in Indonesia and believe these improvements will help facilitate the normalization of kratom in the American marketplace. We do not sell 7oh products or any products we do not feel good about consuming ourselves.

We gratefully support ongoing kratom studies at the University of Florida, contributing to the pharmacological research of Dr. Chris McCurdy and his team. We are proud to sponsor the American Kratom Association as a Consumer Champion and thankful for the strides this organization has made in protecting consumer access to kratom. We are thankful for the businesses that support our mission and the opportunity to share our abundance through recurring donations to charities we love; you may see the list on our website, and we welcome worthy suggestions!

We are an American owned business, based in Austin, TX, founded in 2017, by myself, Jeremy Steding; a husband, father, wellness enthusiast and musician. Our team is made up of kind-hearted, hard working people from all walks of life: aligned in our mission to make this world a little bit better. I am so grateful for this incredible group of people. Together, we strive to facilitate kindness, compassion, love, health, wellness and freedom. We offer an abundance of educational materials to our retailers as well as special benefits to those who opt into our "Trusted Vendor" program.

Of course, we understand that kratom may not be the right choice for everybody, so we encourage potential customers to: Research. Reflect. Decide. In addition to 1836 Kratom, we are proud to offer Steding & Sons Allied Forces - functional mushroom based (non-kratom) wellness products for active lifestyles. We are grateful for the like-minded businesses we partner with and appreciate you considering a relationship with Steding & Sons Mercantile.

Have a rad day!

Jeremy Steding, President

What is **KRATOM?**

What We Believe

At Steding & Sons Mercantile, we firmly support the rights of consumers to make educated decisions about the products they choose to incorporate into their lifestyle. We seek to share our beliefs in an ethical, transparent manner. Nothing on this poster or any 1836 Kratom advertisement, package or marketing material should be interpreted as advice, medical or otherwise. Products are not intended to be a replacement for medical treatment and should not be treated as such. If you have, or may have a medical condition, please consult with a licensed physician.

What Is Kratom?

Kratom (*Mitragyna Speciosa*) is a cousin of the coffee plant, indigenous to Southeast Asia. The vast majority of kratom, in the USA, comes from Indonesia. Traditionally, fresh kratom leaves have been chewed or brewed as tea. More recently, they have been dried, then crushed or powdered and often encapsulated.

Who Uses Kratom and Why

A growing number of people, recently estimated at 15 million Americans, consume kratom regularly. Many fitness enthusiasts and wellness professionals believe kratom to offer a range of benefits; from increased energy and focus, to relaxation and relief from discomfort. Many Americans prefer powdered leaf kratom, capsules or extract products. A serving of kratom is often agreed to be around 3-5g of natural kratom leaf, providing around 50mg of mitragynine in addition to a spectrum of other alkaloids. Many extract products contain significantly higher alkaloid concentrations than the natural plant and concentrations vary greatly. We encourage potential consumers to do their research when considering whether or not to incorporate extract products into a routine, and which products to choose. Please read the label. At Steding & Sons Mercantile we encourage potential kratom consumers to seek credible research from multiple sources and make decisions in alignment with their personal value system. We encourage moderation and mindful consumption. All kratom products may be habit forming.

What Is Not Kratom?

Studies increasingly show that 7oh does not exist in the natural kratom plant in detectable amounts. 7oh products differ greatly from natural kratom, and we encourage potential consumers to do their research.

Please consult with your physician before using any kratom products. The FDA has not approved these statements. Products shown are not intended to diagnose, treat, prevent or cure any disease. Pregnant/nursing women are advised against use. Products are not for sale to minors.

KRATOM. KAVA. ASHWAGANDHA.

Plant Based Aloha

Lazy Luau was introduced in 2023 and has already become our best selling item! Try it, it's no wonder! People love the perfect blend of kava kava, kratom and ashwagandha for a gentle mid-day mood boost or as an alternative to a cocktail at a social event. We've listened to our customers and added clear, 1836 Kratom branding to the new boxes and display cases, and bottles will include it by mid-year.

We Only Sell The Best!

Doing Our Part To

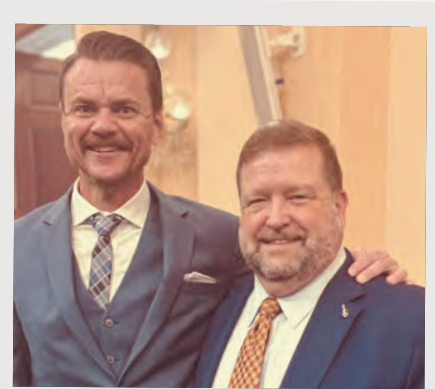

KEEP KRATOM LEGAL

American Kratom Association Hall of Fame Member

We gratefully support ongoing kratom studies at the University of Florida, contributing monthly to agricultural research and the pharmacological research of Dr. Chris McCurdy and his team. We

are truly excited about continuous progress toward deeper understanding of this incredible plant. We know that in order to continue unobstructed research, kratom must remain legal.

THE GOOD DOCTOR CHRIS MCCURDY

We are proud to contribute a significant portion of our revenue and time to kratom advocacy, including recurring donations to the American Kratom Association, acting as a Consumer Champion. We are very grateful that kratom remains legal and will continue to support efforts to ensure that it remains legal and accessible to the millions of Americans that benefit from it.

AKA DELEGATION JAKARTA, INDONESIA 2024

PETER AND KELLY GUIDRY

Some of the most powerful advocates are US Veterans, like Peter and Kelly Guidry, whose powerful kratom story has touched many hearts, including mine. Their motto is "Solutions Over Suffering" and their organization, Forgotten Not Gone, is on a mission to prevent veteran suicide.

Do You Know

Where Your Kratom Comes From?

At Steding & Sons Mercantile, We Do!

At Steding & Sons, We Value Personal Relationships:

We have worked with the same wonderful family, in Indonesia for seven years. I have personally visited four times, seeking to facilitate Good Manufacturing Practices on both sides of the world! I had the opportunity to travel, with an AKA delegation in 2024, and I'm proud to say that our parent vendor has the finest facility in Indonesia! We are truly grateful for the incredible people we work with!

EDDO AND I - AUGUST 2024

ROMY'S WEDDING - PONTIANAK, WEST KALIMANTAN - NOVEMBER 2023

MINISTER OF AGRICULTURE - AUGUST 2024

In August 2024, I had the honor of presenting samples of our products to the Indonesian Minister of Agriculture. Our partner, Eddo, has built wonderful relationships with the leaders of Indonesia and we've made tremendous progress implementing export regulation in Indonesia, ensuring only safe, lab-tested products are shipped!

LOW CALORIE EXTRACTION BLEND

2 SERVINGS PER BOTTLE OR PACKET

Lizzy's Lazy Lemonade is my favorite beverage of all time! Immediately a favorite of our team, this is a refreshing natural lemonade, made with lemons, kratom extract, kava extract and ashwagandha extract, the same active ingredients as our best-selling product, Lazy Luau. This combo is believed to provide the perfect balance of well-being and relaxed focus. This may be a wonderful alternative to having a drink at a social event or simply a way to improve your afternoon. In fact, I'm having one as I create this catalog! I hope and believe you and your customers will love it as much as the team and I do!

KRATOM. KAVA. ASHWAGANDHA.

Doing Our Part To

ENSURE FAIR TRADE

in the kratom industry

My world perspective has never changed so much, so fast, as it did the first day I visited the Kapuas Hulu region of Indonesia in 2019. 150 miles away from the nearest semblance of what we would consider civilization, as I walked across the stilts that hold the village above the rising river tides, my consciousness was forever altered. I had never been to a place so remote, where life was so different.

The people live on very little money, and rely primarily on natural resources for sustenance. As a very rare foreigner, the incredible warmth and excitement with which I was greeted was humbling. Kratom has been so beneficial to these communities, and their gratitude is awe-inspiring. Unfortunately, some companies are seeking to increase margins by paying these farmers less and less. Ourselves and our team in Indonesia are aligned in a mission to protect them and ensure they are paid fairly.

We are proud to have acted as executive producer on the documentary, "Daun Harapan," shining a light on lives in the Kapuas Hulu and the trees' impact on our environment. Big thank you to Yohana, Sugianto and Mindaugas for their collaborating to create this beautiful work. We would be so grateful if you'd give it a look. Likes, comments and follows are cool as well!

Do You Know

Where Your Kratom Comes From?

At Steding & Sons Mercantile, We Do!

At Steding & Sons, We Value Personal Relationships.

Steding & Sons
MERCANTILE

KRATOM FARMER, ABU ATIK

DREW SHOUP MASTER OF CAPSULES

ERIK STRICKLAND POWDER MASTER

It's a long way from the Kapuas Hulu region, of West Kalimantan, Indonesia, to Austin, Texas...

We track our 1836 Kratom every step of the way. Above left, I visit with local farmer, Abu Atik, in 2021

Above: A man and his machine is a beautiful thing! Our longest serving employee, Drew Shoup, has worked as Capsule Master since 2019! We are so grateful for him!

Above: Few in this world have the work ethic of our Powder Master, Erik Strickland! All employees suit up to venture into the clean room environment daily. Hair nets, masks, coveralls, booties and sterilized gloves are mandatory for work in production. Thank you Erik AKA Mad Wolf!

AMERICAN KRATOM ASSOCIATION DELEGATION JAKARTA, INDONESIA

RONNY PUJA - PONTIANAK, INDONESIA

From the farms in Kapuas Hulu, down to Pontianak, Indonesia, and all the way to Austin, Texas, our kratom is processed in a sterile, clean room environment. Above: Ronny demonstrates the wrapping of a 25kg block for export.

SOURCED GLOBALLY. PROUDLY MANUFACTURED IN AUSTIN, TEXAS

Steding & Sons

MERCANTILE

EST. 2017

For generations, illustrated pigs, such as this, have suffered from incredible discrimination in the branding world. Often relegated to small town BBQ signs, we felt it was time to provide these pigs the opportunities presented to other illustrations. We hope the opportunity for this pig to prove it's capability with Big Mama's Guava Kava Kava will open the door for other illustrations in the near future.

Big Mama's GUAVA KAVA KAVA

Kava Kava is often enjoyed in Pacific

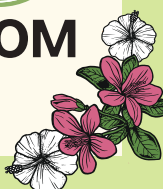

Island cultures & is becoming very popular in the US as an alternative to alcohol for relaxation without the same side effects.

As kava/kratom shots become increasingly popular, there are a lot of folks just want the pure, simple relaxation of kava kava without the kratom. Big Mama's provides approximately 250mg of kavalactones per bottle. Chill.

DO WE SELL 7OH?...

Unless you've been living under a rock, if you're in this industry, you know that 7oh products have been all the rage over the course of the last year. A lot of folks have asked if we carry 7oh products or intend to, and we do not. While 7oh may be helpful for some people, our mission is to serve the long term well-being of our customers, selling only products that we feel good about consuming ourselves and we don't feel that 7oh aligns with that mission. A very large portion of our consumers are fitness and wellness enthusiasts, consuming kratom as part of an overall happy and healthy lifestyle, and we take their trust seriously.

I personally believe that it is very important that customers understand the difference between 7oh, and natural kratom. 7oh is a metabolite, converted in the body (or now a laboratory) from the mitragynine in the plant. According to recent research of Dr. Chris McCurdy, at the University of Florida, Dr. Jack Henningfield and other top level kratom researchers, 7oh does not exist in observable levels in the natural plant, so it really should not be called kratom in my opinion. Of course, I have plenty of judgement passed on myself, for selling kratom, so I don't pass judgement, it's just not the right choice for us. If it does well for you, awesome! But to answer the question. nope.

I am very proud of the variety of products we offer and sincerely hope you'll take the time to see the Trusted Vendor video, and learn a little bit about the difference between our products, and kratom in general. Even if you choose not to carry 1836 Kratom, the video may still serve you well and help you sell whichever kratom you do choose to carry! We are so grateful for y'all, thank you so much for everything!

Thank You So Much!

It's 1am on Wednesday, December 12 as I'm writing this. For the last few weeks, I haven't taken a day off, working 16-18 hour days in order to finish and make this catalog worthy of the new products our team is working so hard to prepare for you. Each piece is falling into place in perfect time, as we prepare to release our most exciting products yet. As I wrap up, my heart is overflowing with gratitude for the opportunity to share something I truly love and believe in, and to share this experience with some of the finest people in the world. I am so thankful for our Steding & Sons' team and for the wonderful customers that believe in our products and our mission. Just shy of eight years ago, my wife Tiffini and I were living in Nashville, TN, on the last legs of a 15 year, underwhelming music career. Our oldest boy, Jackson, had just turned two years old and we were in the trenches. Music had run it's course, we were struggling to make ends meet. I'd discovered kratom three years earlier, at a small shop in Austin, TX and it was incredibly interesting to me. We'd moved to Nashville to pursue songwriting, and I would drive up to Franklin, KY to buy kratom when I ran out (Don't tell anyone.) I was working 70 hour weeks, booking gigs, serving tables and driving Lyft just to tread water. As I'd work, I'd spend the entire day contemplating what I wanted to do with the rest of my life. One night, as I sat in quiet meditation, "kratom" popped into my head... I loved it, believed in it and saw potential beyond the marketplace of the time. I still do!

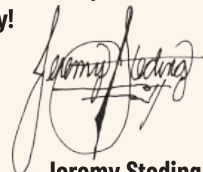

I got a PO box and storage unit, in Franklin, KY. I took some risks with the very little money that we had, experimenting with Facebook vendors, and eventually we found one that followed through. Using PicMonkey and WordSwag, I created simple packaging that I liked, printing labels on the home computer to differentiate products. In May of 2017, "Quantum Kratom" (Until 2020) made the first sale and since that time, I have gratefully poured every ounce of my creative energy into the development of this company and the pursuit of this beautiful American dream. On December 20, 2017, my family and I moved back to Austin, TX and on the exact same day, Tennessee reversed the kratom ban and declared kratom legal. Life is wild!

I spend 2017-2019 covered in kratom dust, making every package, every call, every visit, every FedEx drop and every decision, good and bad. These last few weeks have reminded me of that time very much. I'm tired, but I am so, SO thankful. In 2018 I brought on my first help, and we worked out of the house and PayPal was our payroll. In 2019, we moved into the first little factory. Three people became the first official employees, and among them was Drew Shoup, who still serves as Capsule Master. I spent the subsequent years driving around in my "band van," visiting smoke shops, supplement stores and convenience stores unannounced. From time to time, it worked! I think back on Annie, from Just Like That, in Weaverville, NC and Ali, at Alien Smoke Shop, in San Antonio, buying right out of the van and 25-30 packages being the majority of my inventory! It's been an incredible journey so far and myself and the team are so very grateful for the vendors and customers that make it possible.

Sometime around 2022, I looked up and there were 20 people around me, in this beautiful factory where I'm finishing this catalog. The night shift "vampires" arrived two hours ago and are preparing us for another day of "business as usual:" Anotherday to create and share something we believe in; 20 wonderful, hard working parents, visionaries, creators and believers, from all walks of life, aligned to create something greater than the sum of all parts.

There have been numerous challenges along the way, and 2024 was a year PACKED full of them, but I am as grateful for them as I am for the victories. As kratom becomes more popular, we strive to stay ahead of the ever-evolving challenge of ethically presenting this plant and sharing it responsibly. Consumer education has never been more important and we strive to adequately communicate the variance in potencies, and now the vast difference between 7oh and natural kratom products. It's another challenge we gratefully accept!

While kratom may not be the right choice for everyone, kratom has changed my life, so much for the better, and I am so thankful. It was the positive changes in my personal life, that inspired me to start this company. I am so thankful for the numerous customers, over the years, who have taken the time to share their life-changing kratom stories with me and for the powerful advocates who have had the courage to speak up in defense of kratom. This truly is an amazing plant and I am so thankful to be right here, right now. For each and every customer that has purchased along the way, for those who have worked with us for almost eight years and those who will join us in 2025, THANK YOU. Your business provides the livelihood of some of the coolest people and families you could ever meet. If you are ever in Austin, we would love to have you by our factory. Thank you so much for this incredible opportunity. Have a rad day!
